FOREWORD

This Municipal Handbook is compiled annually under the direction of the City Council, to furnish the citizens of Toronto, and others, with official information relative to the administration of the City. It is presented in the hope that its perusal may stimulate and encourage the citizens generally to take a greater interest in the communal life of their City and in good municipal government, which, in the last analysis, is the basis of sound democratic government.

"Industry — Intelligence — Integrity"

ARMS OF THE CITY OF TORONTO Heraldically Described

SHIELD.—Quarterly of four. 1. Gules, three Lions passant, gardant in pale, Or; 2. Or a Beaver, ppr. 3. Argent, a garb, proper. 4. Azure, a Steamboat, Or.

CREST.—On a Mural Crown, Or, a Beaver, proper.

SUPPORTERS.—*Dexter*, a North American Indian, habited and armed; in the belt a scalping knife; in the right hand a tomahawk, the left arm leaning on a bow; all proper. *Sinister*, Britannia helmed and cuirassed; the right hand supporting a trident, the left hand resting on a shield bearing the crosses of St. George, St. Patrick, and St. Andrew, combined; all proper.

MOTTO.—Industry, Intelligence, Integrity.

Toronto — Incorporated as a City 1834.

The Government of the Province of Upper Canada passed an act on March 6, 1834 to extend the limits of the Town of York and to incorporate the said Town into a City under the name of the City of Toronto.

The preamble of the Bill declared:

"WHEREAS From the rapid increase of the population, commerce and wealth of the town of York a more efficient system of police and

Toronto — continued

municipal government than that now established has become obviously necessary; and

"WHEREAS None appears so likely to attain effectually the objects desired as the erection thereof into a City, and the incorporation of the inhabitants, and vesting in them the power to elect a Mayor, Aldermen and common Councilmen and other officers for the management of the affairs of the said City and the levying of such moderate taxes as may be necessary for improvements and other public purposes; and

"WHEREAS The name of York is common to so many towns and places that it is desirable for avoiding inconvenience and confusion to designate the capital of the Province by a name which will better distinguish it, and none appears more eligible than that by which the site of the present town was known before the name of York was assigned to it;

"Therefore his Majesty, by and with the advice, etc., etc."

The first Municipal election in the City of Toronto was held March 27, 1834. All male householders had the franchise whether owners or tenants. The City was divided into five wards and in each, two aldermen and two Councilmen were elected.

Toronto — continued

William Lyon MacKenzie was elected first mayor of the City of Toronto.

The old Town Hall of York, then situated on the south side of Front Street between Jarvis and West Market Streets, became the first City Hall of Toronto.

The site of the present City Hall, situated on Queen Street between James and Bay streets was intended originally for Court House purposes only, but it was decided subsequently to erect a combined City Hall and Court House thereon.

The cornerstone of the present City Hall was laid November 21, 1891, and the building was opened for public business on September 18, 1899. The total cost (including site, clock, bells and furniture) did not exceed \$2,500,000.

CIVIC ADMINISTRATION

The Government of the City is carried on under the provisions of The Municipal Act and other related Acts, passed by the Legislature of the Province of Ontario. It is vested in a Municipal Council, consisting of the Mayor and four members forming the Board of Control (all five being elected annually by the citizens at large) and eighteen Aldermen elected annually from the nine Wards into which the City is

Toronto — continued

divided (two Aldermen being elected from each Ward). The Council, as a whole, is the legislative body of the Municipality and carries on its legislative work through **Standing Committees**, viz.: Committee on Works, Committee on Property, Committee on Parks and Exhibitions, Committee on Legislation, and Committee on Public Welfare. The general duties of all the Committees of the Council are to report to the Council from time to time, whenever desired by the Council and as often as the interests of the City may require, on all matters connected with the duties imposed on them respectively, and to recommend such action by the Council in relation thereto as may be deemed necessary: To examine all accounts connected with the discharge of their duties, and if approved to recommend same for payment. The **Board of Control** is the executive body and as such is responsible for the preparation of the annual Estimates or Budget and subject to the approval of Council, the regulation and supervision of all matters connected with expenditure, revenue and investments, the sale, renting and leasing of any property belonging to the Corporation, except lands upon the Island, the administration of the Fire Department and the Municipal Abattoir, the awarding of contracts, arrangements for receptions and entertainments of a public

Toronto — continued

character under the direction of the Council, the appointment of officials, the carrying on of public works authorized by the Council, and the general administration of the affairs of the City, except as to the Department of Education and Police, the first being under the control of a Board of Education, consisting of eighteen members, two elected from each of the nine wards into which the City is divided, and two members appointed by the Separate School Board to represent Separate School supporters in certain matters, and the latter under a Board of Commissioners of Police, consisting of the Mayor for the time being, one County Court Judge and one Magistrate.

The Local Board of Health of the City of Toronto consists of the Mayor, the Medical Officer of Health and three resident ratepayers appointed annually by the Council at its first meeting in every year. The Board functions under authority of the Public Health Act, Revised Statutes of Ontario, 1937, Chapter 299.

COURT OF REVISION

W. Assheton Smith, Commissioner.

The Assessment Rolls are returned and the Court sits to hear appeals against the general assessment of the City upon the following days:

Ward No.	Date for Return of Roll	Date of Commencing Court of Revision
1	March 6th	April 7th
2	April 1st	May 4th
3	April 24th	June 10th
9	May 15th	June 15th
5	June 12th	July 13th
6	July 10th	August 10th
7	July 24th	September 8th
8	August 21st	September 21st
4	September 11th	October 13th

Appeals must be filed within ten days after the return of the Assessment Roll, as stated on the notice of assessment, and must be lodged with the Assessment Commissioner.

The Court also sits from time to time throughout the year to hear appeals in respect of local improvement works, vacancy allowances and business tax adjustments.

The City Clerk is the Clerk of the Court.

BIRTHS, MARRIAGES AND DEATHS

All births and marriages must be registered at the City Clerk's Office, Room 21A, ground floor, City Hall, within thirty days from the occurrence thereof.

Telephone Adelaide 7171, Local 18, for general information respecting Vital Statistics.

Physicians in attendance are required to send in notices of births; parents or occupants of dwellings where births occur are required to register same.

Deaths must be registered at the City Clerk's Office, Room 21A, City Hall, or at any police station, before a permit to bury can be issued.

Physicians in attendance are required to certify as to deaths.

Neglect or failure to send in notices in either case renders parties liable to a fine not exceeding ten dollars and costs.

Vital Statistics for Ten Years

Year	Births	Marriages	Deaths
1941	12,316	10,723	8,093
1940	11,371	9,629	7,755
1939	10,553	8,057	7,450
1938	10,875	7,084	7,339
1937	10,425	6,890	7,468
1936	10,826	6,491	7,478
1935	11,012	6,445	7,150
1934	11,141	6,262	6,835
1933	11,805	5,487	7,184
1932	12,709	5,649	7,238

Births, Marriages and Deaths — continued

Marriage License Branch

Marriage Licenses issued during office hours at Room 21, ground floor, City Hall, west side.

Telephone Adelaide 7171, Local 17.

The number of Marriage Licenses issued by the City Clerk in 1941 was 9,358.

Unless a marriage is solemnized within three months from the date of issue of the Marriage License, the License lapses without any provision for an extension of time. No rebate or refund of the fee for a Marriage License is permissible in any circumstances.

A Birth Certificate or other evidence filed with an application for a Marriage License is not returnable.

When neither applicant has his or her usual place of abode in the Province of Ontario, the Assistant Provincial Secretary, Parliament Buildings, Toronto, must be communicated with respecting the necessary evidence required in such cases: or with respect to special authorization.

Compliance with certain regulations must be made in the case of an applicant who is divorced and the divorce took place outside the Dominion of Canada; a copy of such regulations may be obtained from the Assistant Provincial Secretary, Parliament Buildings, Toronto.

DEPARTMENT OF STREET CLEANING

Administrative Office — Ground Floor, west corridor, City Registry Office Building, 90 Albert Street. Telephone Elgin 8369.

The Department of Street Cleaning was organized on December 17th, 1888, for the purpose of developing a system for the regular collection and disposal of ashes and household waste material, and the cleaning of public streets.

The services performed by the Department embrace the cleaning of public thoroughfares, the collection and disposal of ashes and household waste material, the cleaning of catch basins, the oiling of unimproved roadways, the removal of snow and the placement of abrasives on icy roadways.

For collection purposes the area of the city is divided into 23 districts, which are again sub-divided into 3 sections, thus permitting a twice-weekly collection to all parts of the city.

223 vehicles are engaged regularly in the collection services, and during 1941 278,000 tons of ashes and 131,000 tons of garbage were collected. There was an average of 3.08 tons of refuse removed from each dwelling.

All garbage and combustible waste material is disposed of by incineration at three high-temperature garbage disposal plants. The first incinerator was erected in 1917 on the Don Roadway, at Dundas Street. This plant has a

Department of Street Cleaning — continued capacity of 300 tons per day. In 1923 the second plant was constructed on Wellington Street, near Niagara Street. The capacity of this plant is 400 tons per day. The above plants are manually operated, that is, the material is received on the charging floor then drawn into the furnaces by hand labour. The Symes Road Incinerator, which was placed in operation in 1934, is the crane-operated type, that is, the material is dumped into a receiving pit, then lifted by two clam-bucket cranes which discharge the garbage directly into the furnaces.

There are 575 miles of streets, 543 of which are paved and receive regular street cleaning services. During the summer season of 1941, 130,000 cubic yards of litter were removed from the streets, while 9,420 cubic yards of cleanings were removed from the catch basins located on these thoroughfares. Six motor flushers are used nightly in the downtown area and on main thoroughfares, to augment the regular street cleaning service.

The winter services provide for the plowing and the removal of snow from arterial highways. For this purpose, the following equipment is used:

25 Snow Blade Attachments for motor trucks.

3 Tractor Plows.

3 Snow Blowers and Loaders.

1 Snow Loader.

12 Mechanical Spreaders.

DEPARTMENT OF PUBLIC HEALTH

The Administrative offices of the Department of Public Health are located on the Third Floor, City Hall; telephone Adelaide 7171.

DISTRICT OFFICES

The Divisions of Medical Services and Public Health Nursing discharge their functions of city-wide health services through 8 District Offices, each under the joint direction of a District Medical Officer and District Superintendent of Nurses. District Offices are located strategically from west to east over the City as follows:

Runnymede — 354 Keele St.....	JU.	8959
Parkdale — 53 Argyle St.....	ME.	5709
Hillcrest — 643 Markham St.....	ME.	8035
Yorkville — 2398 Yonge St.....	HY.	7914
University — 408 Huron St.....	RA.	3116
Moss Park — 18 Gifford St.....	MI.	8681
Riverdale — 281 Broadview Ave.....	HA.	2185
Scarboro — 299 Main St.....	GR.	1144

DEPARTMENT OF PUBLIC HEALTH HEALTH STATISTICS

The City of Toronto, largely through the efforts of its Department of Public Health, has for many years past maintained a well balanced and highly successful programme of health services. Toronto's expenditure on health conservation is

Department of Public Health — continued

reflected in the marked prolongation of life as apparent in the increase of approximately twenty years in the average age at death of its citizens over a period of a little more than a quarter century.

Less than 25 per cent. of all recorded mortality now occurs in persons under 50 years of age whereas in 1910 the proportion was 65 per cent.

With the decrease of incidence in diseases most directly affected by preventive measures during early infancy, childhood and early adult life, it is inevitable that the more or less uncontrollable conditions associated with advanced age should assume greater significance. Two-thirds of all deaths in 1941 were attributed to diseases of the heart, arteries, kidneys, including cerebral haemorrhage, cancer and diabetes.

Current statistics indicate a further decline in both infant and maternal mortality to levels unequalled heretofore. Deaths under one year of age have fallen from 75 to 40 per 1,000 births, or nearly 50 per cent. in the relatively short space of ten years. In 1910, prior to pasteurization of milk when gastro-intestinal diseases played such a major role in the causation of infant mortality, the ratio was 149 or three and one-half times the present figure.

Department of Public Health — continued

Maternal mortality, including causes associated with childbirth, fell to a new low mark of 2.7 deaths per 1,000 living births in 1941, or to a point 18 per cent. below the record of 3.3 set in 1940.

Communicable diseases, particularly smallpox, typhoid fever and diphtheria, have yielded in the main to preventive measures of control. The City has been entirely free of smallpox since 1932 and in the year past only 17 cases of typhoid fever were reported, not an unusual number for a city of the size and cosmopolitan nature of Toronto.

The situation with respect to diphtheria is not quite as encouraging as the enviable record attained in 1940 when not a single case of this disease was encountered. The year 1941 saw 20 cases of diphtheria, somewhat of a setback in a series of almost unvarying reductions in incidence from the high point of 1929 when 1,022 cases with 64 fatalities were experienced. While this picture is disturbing, it should be viewed in a perspective which takes in the peak year of 1929 and the progressive reduction since that time. Specific control measures were at once instituted, in addition to which the Department purposes maintaining in adequate degree its immunization programme of past years which seeks to contact

Department of Public Health — continued

the young child at six months of age and, through the voluntary co-operation of the parents, protect it against an onslaught of this dread disease, by the introduction of diphtheria toxoid, a harmless and now firmly established preventive.

Tuberculosis mortality has been halved in Toronto since 1930 when the rate was 60.8, and in 1910 it was 130 as against the prevailing figure of 34.

Pneumonia appears to be destined to a far lowered level of mortality since the introduction of the highly effective use of serum and chemotherapy. Deaths show a reduction in number from 496 in 1937 to 324 in 1940, with a further decline to 293 during the past twelve months.

The cyclic characteristics of communicable diseases were in evidence during 1941, the Department of Public Health having to deal with an unusual prevalence of measles, scarlet fever, whooping cough, and German measles. Fortunately these conditions appeared in mild forms, and in consequence fatalities were comparatively few.

Meningococcic meningitis, usually active during wartime, reached a new record of 105 cases in 1941, with thirteen terminating fatally, the majority of these cases being confined to civilian population.

Department of Public Health — continued

An item of interest in current statistics is a continuation of the upward trend in Toronto's birth rate. Beginning in 1940, when the proportion per 1,000 population increased from 15.8 to 17.2, this trend was continued in 1941, the rate being 18.9 or the highest point since 1932.

This brief commentary on health statistics would indicate a measure of progress attending the City's health efforts, in the promotion of which, due appreciation is accorded the private physicians, health and welfare groups and the citizens generally.

CIVIC AMBULANCES

Telephone, Adelaide 6465-6466

The Civic Ambulance Service, under the control of the Department of Public Health, is located at the Coroners' Building, 86 Lombard Street.

A limited service is provided, restricted in scope to answering calls of an emergent nature such as street accidents and similar happenings; the transportation of non-emergent cases to a public hospital when the hospital maintenance of such person is to be at public expense, i.e., a City Order case, and the transportation of all cases of communicable disease. Separate

Department of Public Health — continued

ambulances and staffs are provided for the respective services mentioned.

All calls of whatever nature should be directed to the Coroners' Building, telephone, Adelaide 6465, where the attendant on duty will allocate the call if it is within the above categories, or otherwise advise the enquirer if service cannot be given.

In case of accident, the patient, if of adult age and conscious, has the right to select the hospital or other destination within the City to which it is desired to be taken. In the case of children or those in an unconscious condition, a physician, if one is in attendance at the scene of accident, will undertake direction of the ambulance. In the absence of a physician, this duty then devolves on any police officer present, and failing either of these authorities the ambulance crew will then take responsibility for removal of the injured person.

In cases where a person is found dead and a physician has not been in immediate attendance, the Chief Coroner's office, 86 Lombard Street — telephone, Adelaide 6466 — should be called without delay.

Department of Public Health — continued

PUBLIC HOSPITALS

The Public Hospitals in the City are located as follows:

Toronto General Hospital, 101 College St.

St. Michael's Hospital, 30 Bond St.

Hospital for Sick Children, 67 College St.

Western Hospital, 399 Bathurst St.

St. Joseph's Hospital, 1830 Queen St. W.

Women's College Hospital, 74 Grenville St.

Salvation Army Grace Hospital, 133 Bloor St. East.

Toronto East General Hospital, Coxwell and Sammon Avenues (East York).

Mt. Sinai Hospital, 100 Yorkville Ave.

Wellesley Hospital, Homewood Place.

Lockwood Clinic Hospital, 300 Bloor St. E.

Mothercraft Centre, 84 Wellesley St.

OTHER HOSPITALS AND INSTITUTIONS

Riverdale Isolation Hospital, Gerrard St. East and St. Matthews Road.

Toronto Hospital for Consumptives, Buttonwood Avenue (Mt. Dennis).

Daughters of the Empire Hospital for Convalescent Children, Sheldrake Blvd.

7, 8 and 9	May 27th	July 15th	Sept. 9th

PARKS AND PLAYGROUNDS

The park system of Toronto, comprising 2,361.536 acres, had its beginning in the dedication by the late Jesse Ketchum to the Village of Yorkville in 1856 of the area known as Ketchum Park, and which came into possession of the City upon the annexation of Yorkville to the City in 1883. Since that time many park areas have been deeded to the City by the Crown, or donated by private citizens, and in all 1,006.85 acres have been so acquired. Much of this development has taken place in the past twenty-five years, during which time 909.44 acres of land have been acquired.

One hundred and three park and playground areas are comprised in the park system, thirty eight children's supervised playgrounds are operated within the system, in addition to which twenty-seven are operated by the Parks Department upon school grounds during the summer season. During the winter season fifty-four recreation centres are operated, forty-six of which are conducted in school buildings and two in rented gymnasia.

The zoological collections at Riverdale Park, High Park and the Island comprise a great variety of domestic and foreign animals and birds. The animals number 216 in 78 different species; birds comprising 161 species number

Parks and Playgrounds — continued

539. Many of the most valuable of these have been donated to the City.

The trees upon the streets of the City, as well as those in the parks, are under the care of the Parks Department. During the past year 15,941 trees upon the streets were sprayed; 10,500 were cleaned; 1,278 were removed; and 16,976 were pruned.

The Exhibition Buildings and Grounds, in which the Canadian National Exhibition is held annually, are maintained by the City through the Parks Department.

Parks and Playgrounds — continued

RECREATION FEATURES

Comprised in the parks are the following recreation features:—

Equipped playgrounds (including 17 wading pools)	65
Baseball fields	74

Bowling greens	38
Skating rinks	85
Hockey rinks	76
Toboggan slides	15
Bathing stations	7
Boating stations	2
Fieldhouses	60
Running tracks	3
Picnic areas (accommodation for over 100 persons each)	109

TORONTO MUNICIPAL ABATTOIR

This service was inaugurated August 4th, 1914, as a public slaughtering establishment with cold storage (high and low temperature) accommodation. It is essentially to the greatest extent a public health institution, and while the fact of its existence may perhaps at times have had a tendency to regulate the price of meats, the purpose of its establishment was to concentrate the slaughtering of food animals within the City, so that the evils attendant upon the operation of small slaughter houses might be eliminated.

Earl E. Hunt, Abattoir Commissioner.

Office

Foot of Tecumseth St., Toronto 2.

Telephone, Waverley 9214.

DEPARTMENT OF BUILDINGS

The Department of Buildings has charge of the following:

1. The examination of Plans, and issuing of permits for all buildings.
2. The licensing of Passenger Elevators.
3. The licensing of Dry Cleaning, and Spotting and Stain Removing establishments.
4. The preparation of plans and specifications and the supervision of erection of Civic Buildings.
5. The inspection and supervision of all Signs, Canopies and Fire Escapes over Public property.

During the past year 48 licenses were issued for the operation of Dry Cleaning Plants and 230 licenses were issued for Spotting and Stain Removing Establishments including Fur Cleaning Firms.

Licenses were granted for the operation of 1,286 Passenger Elevators.

LOCAL IMPROVEMENT WORKS

When the owners of property on any street or lane desire a pavement, sidewalk, curbing, grading, sewer or water main, or when the property owners in any locality desire the opening, widening, extension or diversion of a street or lane, application should be made to the Department of Works for a form of petition to the Council for the work or improvement. The petition issued by the Department contains an estimate of the cost of the work and the estimated rate of assessment per foot frontage. When the petition has been signed by two-thirds in number of the owners representing at least one-half in value of the lots liable to be specially assessed, the Council, with the approval of the Ontario Municipal Board, may proceed with the work and subsequently assess the cost against the lots abutting directly on the work.

If it is found, when the petition is presented, that the names of two-thirds in number of the property owners representing at least one-half in value of the property have not been obtained, and if the Council nevertheless determines, on the recommendation of the Commissioner of Works, that the work is necessary and in the public interest, it may direct, with the approval of the Ontario Municipal Board, that the work be proceeded with unless a majority of the interested

Local Improvement Works — continued

property owners, representing at least one-half in value of the property to be assessed, petition against it within one month after the Council has given notice of its intention to proceed therewith. The foregoing procedure, which is called the "initiative" procedure, may also be followed on the recommendation of the Commissioner of Works, or on the joint recommendation of the Commissioners of Works and Assessment in the case of certain works, when there has been no petition for the improvement.

Under authority of section 8 of the Local Improvement Act, the Council, if it deems a work necessary in the public interest, may proceed therewith, with the approval of the Ontario Municipal Board, notwithstanding any petition to the Council opposed thereto. The vote of the Council to proceed with the work must be a two-thirds vote of the whole Council.

Where the work is a trunk sewer, trunk water main, or the opening, widening, extending, diverting or grading of a street, the Council may by a three-fourths vote of the whole Council assume part of the cost and assess part of the cost against abutting lands and also lands benefited by the work.

WATER RATES

Payment of Rates

Water rates are payable as follows:

GENERAL RATES

District No. 1 — Being all that part of the City east of the Don River; rates payable half-yearly on or before each last day of April and October.

District No. 2 — From the Don River to and including Yonge Street; rates payable half-yearly on or before each last day of May and November.

\$4.00 plus moving charge

Lowering and hoisting, one floor.....

\$7.00 plus moving charge

Lowering or hoisting, one floor (when not moved).....\$5.00

Lowering or hoisting over one floor, each additional floor.....\$2.00

Work-cards must be used when operating under this Schedule as provided for in Section 27 of this By-law.

Rates to be Charged for Moving Household Goods and Office Furniture—continued

For other rates, see By-law No. 204 of the Board of Commissioners of Police for the City of Toronto, copy of which may be obtained from License Office of City Hall.

BOARD OF EDUCATION

The Board of Education consists of eighteen elected members (two elected from each of the nine wards into which the City is divided), and two members appointed by the Separate School Board to represent Separate School Supporters in certain matters.

The membership by wards at present is as follows:

Ward 1

Geo. M. A. Grube, M.A., 33½ Thorncliffe Avenue.

Wm. E. Murdoch, B.A., 26 Butternut Avenue.

Ward 2

Mrs. May Birchard, 37 Metcalfe Street.

E. A. Hardy, O.B.E., D.Paed., 124 Duplex Avenue.

Ward 3

John R. Huffman, 36 Toronto Street.

W. Reg. Shaw, 1130 Bay Street.

Ward 4

Mrs. Tmima Littner Cohn, B.A., 75 Albany Avenue.

M. Shelly Millstone, 455 Spadina Avenue.

Ward 5

Harold Menzies, 869 Bloor Street West.

J. P. Frank Williams, M.D., 550 Palmerston Blvd.

Ward 6

Mrs. Fred G. McBrien, 1447 King Street West.

Frank W. Ward, 1200 Bay Street.

Board of Education—continued

Ward 7

Wm. H. Butt, M.D., 316 Keele Street.

Mrs. H. E. McCullagh, 67 Colbeck Street.

Ward 8

Stanley J. Fenwick, 501 Logan Avenue.

Loftus H. Reid, 55 Queen Street East.

Ward 9

C. R. Conquergood, 15 Duncan Street.

R. Alan Sampson, B.A., 45 Richmond Street West.

Representatives of Separate School Supporters—

Herbert L. Conlin

Arthur Kelly, B.A.

Officers of the Board

Harold Menzies, Chairman.

C. H. R. Fuller, B.A.Sc., Business Administrator and Secretary-Treasurer.

PENNY BANK**For Schools**

Inaugurated April 1st, 1905

The Penny Bank operates in the Schools with the approval of the Board of Education. Deposits are made each Tuesday morning in the class room. Withdrawals can be made by school children at the Head Office of the Bank, corner of Orde and McCaul Streets, between the hours of 3.30 p.m. and 5 p.m., except Saturday, and by parents from 10 a.m. until 5 p.m. Banking hours on Saturdays from 10 a.m. until 12 noon.

There are over 80,000 open accounts in Toronto and suburbs with a total balance on deposit of over \$475,000. About 20% of the pupils make deposits every Tuesday morning. A large number of classes have 100% of the enrolment operating accounts in the Penny Bank.

Hon. President—Colonel H. D. Lockhart Gordon,
D.S.O., V.D.

President—M. A. Mackenzie, M.A. F.I.A., LL.D.

Managing Director—H. B. Scandrett.

Assistant Manager—Elizabeth Armstrong,
Telephone, Adelaide 0828.

TORONTO AND SUBURBAN SEPARATE SCHOOL BOARD

The Board at present is composed of 12 Trustees, elected by wards, for a term of two years—9 trustees being elected in the City and 3 trustees in the suburban area.

The membership at present is:

Gerard Beaudoin, 11 Dunbar Road.
 J. G. Culnan, 209 Indian Road Cres.
 M. L. Doyle, 12 Crestview Road.
 Elmer T. Duggan, 119 Kendal Ave.
 M. J. Duggan, 33 Victor Ave.

PUBLIC LIBRARIES

The management and control of the Public Libraries of the City are vested in the Toronto Public Library Board, appointed pursuant to the provisions of the Act respecting Public Libraries and Art Schools (Chap. 202, R.S.O. 1914) and composed of the Mayor of the City and eight others, three of whom are appointed by the City Council, three by the Board of Education, and two by the Separate (Catholic) School Board. The persons appointed by the City Council and the Board of Education hold office for three years, and those by the Separate School Board for two years. These members retire in rotation at the end of their respective terms on the 31st of January.

The Board holds its regular meetings on the second Tuesday of each month, and the Libraries and Finance Committee meets on the next preceding Thursday.

The Libraries are maintained by an annual appropriation from the tax rates, under legislative enactment, of an amount not to exceed fifty cents per capita of the population of the City as shown in the returns of the Assessment Department. This appropriation is obligatory, but a vote of a majority of the members of the Council present and voting the appropriation may be increased to an amount not exceeding one dollar per capita.

The Administration Offices are located in the Central Library Building, corner College and St. George Streets. Telephone (switchboard), Kingsdale 1151.

The Downtown Circulating Library is at No. 42 Adelaide Street West.

The Reference Library, the Business and Technical Library, and the Central Circulating Library are located in the main Library building, situated at the corner of St. George and College Streets. Immediately north of this building there is a well-equipped Boys and Girls Library in the Boys and Girls House. There are seventeen Branch Libraries (including a library for the troops in training in Exhibition Park) and also Stations in eighteen Schools and Settlements, etc.

The cost of the main building at College and St. George Streets, and of the Branches on Yorkville Avenue, Queen Street West, Annette Street, Broadview Avenue, Roncesvalles Avenue, Bathurst Street and Queen Street East was met by funds provided by the late

Public Libraries—continued

Andrew Carnegie. Sites and buildings for the other branch libraries were secured by special appropriations from the City.

The Reference Library is open from 10 a.m. to 9.30 p.m.; the Central Circulating Library from 9 a.m. to 9 p.m.; the Downtown Branch from 8.30 a.m. to 8 p.m.; the remaining branch libraries from 2 to 9 p.m.; but closing on Wednesdays. The Boys and Girls Library, on St. George Street, opens at 10 a.m. and closes at 6 p.m.

The main building includes, in addition to the administrative offices and the Reference and Circulating Divisions, the Central Reading Room, with an ample supply of the leading Canadian, British and American newspapers and magazines; the Music Library, a popular branch of the lending system; the Reference collection of the bound volumes of the Canadian, British and American patent specifications; a valuable collection of Government documents, and a Bureau of Clippings, these gathered from current periodicals for reference purposes.

In the Circulating portion of the main building are also housed the Kipling Room, with its special collection of books for boys and girls of High School age, and the John Ross Robertson Collection of engravings, prints and paintings illustra-

CANADIAN NATIONAL EXHIBITION CLOSING OF CANADIAN NATIONAL EXHIBITION FOR THE DURATION OF THE WAR.

Pursuant to a request received from a representative of the Department of National Defence, Ottawa, for the continued operation and use of various buildings at the Exhibition Grounds for Military purposes and for the reason that the holding of the Exhibition as usual would seriously interfere with war activities at this location, and it being absolutely essential that the Active Forces remain in possession of the buildings, the Board of Directors of the Canadian National Exhibition Association has decided to accede to the desires of the Dominion Government, and postpone the Annual Exhibition until after the war.

The show of 1941, the third held under war conditions since aggressor nations launched their attack on the world was in many respects the best ever conducted by the association. A new attendance record of 267,000 for one day was set on Labor Day. The ready adaptability of the Exhibition to war-time needs was demonstrated

Canadian National Exhibition—continued

and in a variety of ways it contributed handsomely to the war effort. The national morale was improved, business was stimulated and Canada showed the world she is looking to a quick resumption of the arts of peace when victory shall have been achieved.

Out of war was born the precursor of the Canadian National Exhibition in 1792 when the Niagara Agricultural Society was formed in the then wilderness near Newark, now Niagara-on-the-Lake. Its organizers were composed largely of United Empire Loyalists who had come to this country after the American Revolutionary War. With the primitive means at hand with which to develop the agricultural resources of the fertile Niagara Peninsula they laid the foundations of what was to become the world's greatest annual exposition. Governor John Graves Simcoe, first governor of Upper Canada, was keenly interested in the society subscribing liberally to the prize money and offering encouragement in many ways.

There were many obstacles to be overcome in those early days but the determination so characteristic of the settlers resulted in the survival of the Fair. In 1801 the "society instituted in London, Canada, for the encouragement of agriculture, industry and the arts" offered pre-

Canadian National Exhibition—continued

miums for various branches of the struggling Fair's activities. Eventually came the war of 1812 to bring about a setback but the association was kept alive. In 1820 a cattle show was held at York, now Toronto. Government recognition was gained in 1830 when a grant of \$400 was made to agricultural societies. This led to the formation of a provincial agricultural society in 1846. This society held a show each year at different points throughout the growing province. This procedure was adhered to until 1878 when it was decided that an itinerant fair was not in the best interests of the whole community and when the municipality of Toronto undertook to sponsor the erection of large permanent structures for exhibition purposes the show became a Toronto fixture and was held annually as the Toronto Industrial Exhibition. The latter became separated from and independent of the provincial society. In 1912 the name was changed to the Canadian National Exhibition and the show became truly national in scope. Since that time it has expanded steadily until its activities, in peace times, embrace the foremost countries of the world.

The Board of Directors consists of the mayor of the city of Toronto and seven members of the city council together with eight representatives of

Canadian National Exhibition—continued

manufacturing interests and eight representatives of agriculture. These are elected from the membership which comprises one hundred and fifty organizations of various kinds.

GROUNDS AND BUILDINGS

Exhibition Park is an exquisitely landscaped property of 350 acres extending for a distance of a mile and a half along the shore of Lake Ontario and well within the city limits. A protected regatta course extends the full length of the park.

Canadian National Exhibition — continued

Beautiful shade trees, paved boulevards, immaculate beds of flowers and foliage in artistic design, wide, sweeping lawns and stately buildings of stone, steel, brick and concrete, gems of exposition architecture combine to make a most attractive picture with the blue waters of the lake as background. Many of these great display structures cost in excess of a million dollars each.

At the outbreak of war, which occurred during the Canadian National Exhibition of 1939, the complete plant and equipment was offered to the government for use by the Department of National Defence. Not all of the buildings were required by the armed forces but several of them were occupied by troops in the fall, winter and spring months. Part of the vast Coliseum was established as a manning depot for the Royal Canadian Air Force. Detachments of the Navy are quartered in the mammoth Automotive Building and the army given most suitable accommodation in other fine buildings.

The desirability of this arrangement was quickly demonstrated and it was carried on in the winter of 1940-41 and 1941-42. The Department of National Defence has given the Canadian National Exhibition its hearty co-operation in preserving the continuity of the show. It was agreed that the Exhibition had made a desirable contribution

Canadian National Exhibition — continued

to the national morale, stimulated recruiting and assisted in raising more than \$100,000 for various defence causes such as the Red Cross, Britain War Relief and organizations devoted to supplying comforts for the men of the services. The courage, optimism and faith of the management was fully justified by the results. The important part the Canadian National Exhibition plays in Canada's defence effort was proved conclusively. Thus is the "Show Window of the Nations" fulfilling its destiny not only as the world's largest annual exposition but as an inspiration to the people of Canada, the British Empire and ultimately the world.

ROYAL AGRICULTURAL WINTER FAIR ASSOCIATION OF CANADA

The Royal Agricultural Winter Fair Association of Canada is a voluntary body, organized in 1919, for the purpose of promoting the higher branches of Agriculture in the Dominion, notably live stock, through the competitive stimulus of an annual exhibition of farm products. Its annual Fair occupies an enviable position among agricultural exhibitions on the American Continent, and in its combined wide scope, representative inclusiveness, variety of exhibits, and high standards is undoubtedly unique in any country.

Included in the membership of the Association are representatives of all existing live stock and other agricultural organizations in Canada, as well as of the Dominion and Provincial Governments and the City of Toronto.

At the outbreak of War in September, 1939, the Directors of the Royal readily agreed to the suspension of the Fair so that the extensive buildings, especially the Coliseum and its two fine annexes, with administration offices, might be turned over to the Department of Defence in connection with the great war effort.

THE TORONTO HARBOUR COMMISSIONERS

The Toronto Harbour Commissioners, under a Special Act of the Parliament of Canada passed in 1911, were given control over the Port of Toronto. They commenced active operations in 1914, and the Harbour, at that time inadequate and relatively inaccessible, has been transformed by the Commissioners, in co-operation with the City Council and Dominion Government, into one of the most up-to-date on the Great Lakes. It can accommodate the largest vessels passing through the Welland Ship Canal and in cargo tonnage it now rates among the highest of Canadian Lake and Sea Ports.

In addition to deepening the Harbour and constructing approximately 47,000 lineal feet of wharves, two large water-front industrial areas were created out of lands covered by water and non-revenue producing in 1915. These areas are served by thirty-two miles of Commissioners' railway tracks, wide paved streets and hydro-electric power at cost. There is perfect co-ordination of rail, water, air and highway transportation.

While two industrial and commercial areas in the Central and Eastern Sections have been created by the reclamation of the Harbour, 217 acres have also been reclaimed at the Western Section between Dowling Avenue and the Hum-

The Toronto Harbour Commissioners —continued

ber River. This area is known as Sunnyside Beach—Toronto's lakeshore playground. Here are found amusement devices, games, rides, swimming, dancing, refreshments, etc. On the beach proper is located a bathing pavilion with locker accommodation for 7,700 bathers; adjoining this is a swimming pool 300 feet long by 75 feet wide, with a capacity of 750,000 gallons.

The area of the lands sold, leased or occupied is now in excess of 520 acres, on which are located varied establishments with investments of approximately \$39,000,000.00 in land, buildings and equipment. In addition, during 1940, the Commissioners leased for the duration of the war approximately thirty-three acres of Harbour land at a nominal rental to the Department of National Defence, upon which is now located Equipment Depot No. 1 of The Commonwealth Air Training Scheme. Around 380 acres are still available for lease or sale.

Another important part of the development work was the construction of Toronto's Cross-Town Waterfront highway which extends from the Humber River on the west to Leslie Street on the east, a distance of seven miles, with a minimum pavement width of fifty feet. It provides not only a fine entrance to the City from the west but

The Toronto Harbour Commissioners —continued

also an easy means of access to downtown Toronto for tourists and the motoring public generally. The foresight in constructing this highway, made possible by the waterfront development, is evidenced by the many thousands of motor cars using it daily.

In order to finance this large scale expansion and development the Commissioners were authorized to borrow money by the issue of bonds, guaranteed as to principal and interest by the City. Over the period of years the position of the Commissioners has become more and more favourable, and in 1941, the general tax revenue received by the City from Harbour properties, which in 1915 were covered by water, is in excess of the amount the City was called upon to pay under its guarantee for the year 1941, by more than \$200,000.00.

The Toronto Harbour Commissioners—continued

Interest and debt retirement charges 1941.....	\$ 1,155,369.21

The following are the general and local improvement taxes paid by the Harbour Commissioners on Harbour lands:—

Year	General	Local Improve- ment	Total
1912 to 1934..	\$132,318	\$1,221,237	\$1,353,555
1935..	16,202	183,654	199,856
1936..	40,982	160,689	201,671
1937..	28,566	158,556	187,122
1938..	25,844	148,975	174,819
1939..	27,081	128,954	156,035
1940..	25,493	112,154	137,647
1941..	13,177	48,773	61,950
Total..	\$309,663	\$2,162,992	\$2,472,655

On account of bond refinancing the difference between the financing of 1936 and that of 1937 resulted in an annual saving of \$285,302.44.

The Citizens of Toronto have benefited greatly by the tremendous increase during the last few years of waterborne traffic into and out of the City directly resulting from the improved Harbour facilities. The following sets forth comparative tonnages for the years 1921, 1931 to 1941:—

The Toronto Harbour Commissioners

—continued

Year	Tons	Year	Tons
1921.....	248,363	1936.....	3,382,858
1931.....	2,121,066	1937.....	3,703,881
1932.....	2,270,448	1938.....	3,801,025
1933.....	2,500,100	1939.....	3,589,561
1934.....	3,125,144	1940.....	4,762,292
1935.....	3,020,132	1941.....	4,166,951

The oil and coal and coke industries furnish a concrete example of the benefits arising to the citizens from the Harbour Development. Many oil companies have located on Harbour property using extensive dockage space, while coal and coke are now stored for many months during the year on waterfront property.

In connection with the latter, the facilities afforded not only serve to guarantee a winter's supply of fuel for use in the City, regardless of conditions that might develop elsewhere during the fall and winter months, but also the cost of coal and coke to the consumer has been greatly reduced. Dealers are now able to purchase their whole year's supply at low summer rates; it can be economically carried by water transport, cheaply unloaded directly from vessels to storage, and used as needed.

The Toronto Harbour Commissioners

—continued

The following table shows the increase in oil, coal and coke tonnage during the past few years and indicates the advantage taken by these two industries of the Harbour Development:—

Year	Petroleum	Coal & Coke
	Products Tons	
1920.....	38,402	155,839
1930.....	449,219	225,992
1936.....	726,470	1,631,603
1937.....	837,937	1,726,966
1938.....	786,545	1,574,700
1939.....	838,406	1,761,131
1940.....	1,365,722	2,224,881
1941.....	1,361,047	1,886,068

The general taxes received by the City from industries located on the lands created by the Harbour Development, the benefits arising from the ever-increasing waterborne trade of the Harbour and the impetus given thereby to the commerce of the City, apart from the saving to the citizens by reason of low cost transportation, are tangible results of the development. These, as a whole, cannot be rated in dollars and cents but they are, nevertheless of incalculable value to the City at large.

The Toronto Harbour Commissioners —continued

In 1937, the City Council decided to construct two municipal airports, one a combined airport and seaplane base on Toronto Island and the other an all-weather airport at Malton, and requested the Harbour Commissioners to construct and operate them for and at the expense of the City.

The Island Airport, officially named by the City Council "Port George VI, Toronto Island Airport" has been mainly reclaimed from the inner harbour and lake. It is an "all-way" field comprising 177 acres, practically all sodded. The Airport has three flightways 3,000-feet long and 500-feet wide, all of which have been lighted; two have a paved runway 150-feet wide for their full length. The Airport is equipped with a modern Administration Building, lighting system, hangar, seaplane ramp, low dock and passenger float.

In 1940 permission was granted to the Royal Norwegian Government to use the Airport as a training centre for its Air Force. A Norwegian Camp "Little Norway" has also been located on Harbour lands in the vicinity, at the foot of Bathurst Street.

At Malton, 1,444 acres were acquired for airport and zoning purposes, the objective being to

The Toronto Harbour Commissioners —continued

use the zone-controlled areas for industrial development in connection with the manufacture of aircraft, subject to the regulations of the Department of Transport as to height of structures, etc. The National Steel Car Corporation Limited purchased some 108 acres, on which a large aircraft plant is now in operation. In addition to this, a large aircraft plant has been constructed by Canadian Associated Aircraft Limited on a 15-acre site purchased by this Company. The Trans-Canada Air Lines have leased $2\frac{1}{2}$ acres adjoining the landing field and have erected a hangar.

Work on the Malton Airport proper (which contains 693 acres) commenced in August, 1937 and in August, 1938, the first Trans-Canada airplane landed at the Airport. Provision was made for flightways covering eight points of the compass 1000 feet in width and 9000 feet long with permissible paved runways 5000 feet in length and upwards. Three flightways were constructed 3000 feet long and 500 feet wide, each with a paved runway 150 feet wide for its full length. The Airport is equipped with a modern Administration Building, lighting system, meteorological offices, radio, etc.

From November 1938 until the end of 1940 the Airport proper was leased to the Department of

The Toronto Harbour Commissioners —continued

Transport and is now under lease to the Department of Munitions and Supply. Recently the Lessee extended two of the paved runways to 3800 feet and 4600 feet respectively and enlarged the Administration Building.

In connection with the Commonwealth Air Training Scheme, the Department of National Defence established two training schools, an Elementary Flying Training School and an Air Observers School, at the Airport. These schools are located on the easterly side of the Airport.

Air service between Toronto and principal Canadian and American cities is provided by regular scheduled flights by Trans-Canada Air Lines and American Airlines to and from this Airport.

The Malton Airport has been officially named "Bishop Field, Toronto Airport, Malton," in honour and recognition of the war-time service of Air Marshal William A. Bishop, V.C.

TORONTO TRANSPORTATION COMMISSION

The Toronto Transportation Commission was incorporated by an Act of the Ontario Legislature assented to June 4th, 1920. The Act of Incorporation is 10-11 Geo. V, 1920, Chap. 144, which may be briefly summarized as follows:

(1) The Commission consists of three members, appointed by the City Council to serve for three years, and to be paid such salary or other remunerations as may be fixed by Council.

(2) No member of the City Council is eligible for appointment as a member of the Commission.

(3) The Commission is entrusted with the control, maintenance, operation and management of:

(a) The Toronto Railway Company upon its acquisition by the City.

(b) The Civic Lines.

(c) Any other street railways that the City may from time to time acquire.

(4) The City may at any time entrust to the Commission the construction, control, maintenance, operation and management of lines of motor buses, or subways, or of tubes, or of any method of underground or local overhead transportation (This was done by By-law No. 8564.)

Toronto Transportation Commission —continued

(5) To consider generally all matters relating to local transportation in the City of Toronto.

(6) To construct, control, maintain, operate and manage new lines of street railway.

(7) To fix such tolls and fares so that the revenue of the Commission shall be sufficient to make all transportation facilities under its control and management self-sustaining after providing for such maintenance, renewals, depreciation and debt charges as it shall think proper.

(8) To requisition the City for money necessary to carry out its powers and duties. But nothing contained in the Act of Incorporation shall divest the Council of its authority with reference to providing money for such purposes.

(9) The Commission to furnish the City annually an Operating and Financial Statement, and keep its books at all times open for inspection by the Audit Department of the City.

The fares chargeable by the Commission are as follows:

Fares for Adults:

Four tickets for 25 cents; cash fare, 10 cents.

Toronto Transportation Commission

—continued

Fares for Children:

- (a) Infants "in-arms", free. Children, not over 51 inches in height: Cash, three cents; ten tickets for 25 cents.
- (b) School Children's tickets: School Children's tickets are sold at the rate of seven for 25 cents, and are for the use of all school children under 16 years of age. The tickets are good only going to and from school, between the hours of 8 a.m. and 4.30 p.m., and are not valid on Saturdays, Sundays or on other days when schools are closed.

Free transportation privileges on the street cars are provided to the members of the Amputations Association of the Great War and to blind people in Toronto receiving passes through the Canadian National Institute for the Blind.

Free transfers are issued between all street cars within the City limits and between street cars and "feeder" buses within the City limits.

To protect the City's huge investment and its rights to control public transportation in its streets, the City authorized the Commission's acquirement of control of the principal motor coach routes radiating from the City and of

Toronto Transportation Commission —continued

motor coach sight-seeing services in the City. These services and other special motor coach and motor launch services are operated by the Commission under the name of Gray Coach Lines, Limited. With its routes extending from the United States border at Niagara Falls and Buffalo to Toronto and thence to Muskoka Lakes, North Bay and other northern Ontario resorts, Gray Coach Lines' motor coach services have made Toronto the hub of highway travel and have developed a profitable tourist business for Toronto. Complete information in reference to the services of Gray Coach Lines and connecting motor coach services to all points in Canada and the United States is available at Toronto Bus Terminal, 602 Bay Street, or by telephoning ADelaide 4221.

Several municipalities adjacent to Toronto have arranged to have their local public transportation services managed by the Toronto Transportation Commission. This arrangement is advantageous to these municipalities and does not impose any financial responsibility on Toronto or on the Commission. These include street railway services in York Township, Weston, and the municipalities between Toronto and Richmond Hill on north Yonge Street; and

Toronto Transportation Commission —continued

bus services in York Township, Forest Hill Village, Leaside and East York Township.

The Toronto Island Ferries, now owned by the City of Toronto, have been managed by the Transportation Commission since February 1927. Passenger and freight service is supplied by a fleet of ferry boats and freight craft between the mainland and the three Islands—Centre Island, Hanlan's Point and Ward's Island. The one-way trip to any of these points is made in approximately fifteen minutes.

The ferry service is managed by the Commission under an agreement with the City. The finances of this service are entirely separate from those of the other service managed by the Commission under its Act of Incorporation.

The rates of fare are the same on the ferries as on the City street car system, the same tickets being good on either service, but no transfer tickets are issued between the ferries and the street cars.

This is the twenty-second year of the Commission's operation of the various transportation services. During the preceding twenty-one years, approximately $5\frac{1}{2}$ billions of passengers have travelled on the street cars, buses, motor coaches, ferries and motor launches operated by the Commission.

Toronto Transportation Commission —continued

The Commission operates 961 electric street cars and 72 electric service cars. The street cars travel a distance of approximately 25,000,000 miles in service during a year. The 318 buses and motor coaches travel 9,100,000 miles yearly. The fleet of five ferry boats carry nearly 2,000,000 passengers during the Summer. Approximately 3,300 people are regularly employed by the Commission.

The Commissioners are as follows:

Wm. C. McBrien, Chairman.

Wm. Croft, Vice-Chairman.

W. G. Russell, Commissioner.

H. C. Patten, General Manager.

C. A. Ward, Secretary.

Offices: 35 Yonge Street, Telephone, WAv-erley 7611.

TORONTO HYDRO-ELECTRIC SYSTEM

The Toronto Hydro-Electric System is owned by the City of Toronto, and is operated for it by the Toronto Electric Commissioners.

The Toronto Electric Commissioners, created under Provincial Statutes (1 Geo. V, Chap. 119, Sec. 6), are empowered to carry out the provisions of the Public Utilities Act of Ontario (R.S.O., 1927, Chap. 249) in so far as such Act applies to the City of Toronto.

The present members and officers are:

Commissioners

Joseph Gibbons, Chairman.
Kenneth A. Christie, K.C., Vice-Chairman.
Frederick J. Conboy, D.D.S. (Mayor).

Officers

E. M. Ashworth, General Manager.
H. J. MacTavish, Secretary.

Offices

14 Carlton Street: Telephone, AD. 2261.

The Toronto Hydro-Electric System is one of the largest municipally-owned distribution systems in the world, and distributes power at unusually low rates.

Toronto Hydro-Electric System —continued

Alternating Current Light and Power Rates

(This Schedule does not include rates for service outside the City Limits.)

Residence Service

Alternating Current—25 Cycles—120 Volts.

Monthly Demand Charge:

Three cents per 100 square feet floor area, per month. (Minimum 1,000 sq. ft. Maximum 3,000 sq. ft.)

Energy Charge:

One and eight-tenths cents per Kilowatt-hour up to equivalent of 3 Kilowatt-hours per 100 sq. ft. floor area charged.

One cent per Kilowatt-hour for all additional consumption.

Prompt payment discount 10%. Minimum monthly bill 75c. (net).

Commercial Lighting Service

Alternating Current—25 Cycles—120 Volts.
Billing Demand—by Meter or 100% Installed Capacity.

Three cents per Kilowatt-hour for equivalent of first 80 hours' monthly use of Billing Demand.

Toronto Hydro-Electric System

—continued

Two-thirds cent per Kilowatt-hour for equivalent of 80 hours' monthly use of Billing Demand. One-third cent per Kilowatt-hour for all additional consumption.

Prompt payment discount 10%.

Minimum monthly charge 75c. (net) per Kilowatt of Billing Demand. Minimum monthly bill 75c. (net.)

Power Service

Alternating Current—25 Cycles—3 Phase 550 Volts. Billing Demand—by Meter or 100% Installed Capacity. Alternating Current—25 Cycles—3 Phase—208 Volts (See Note).

Monthly Demand Charge:

One dollar and ten cents per Kilowatt for the first $7\frac{1}{2}$ Kilowatts of Billing Demand.

Ninety cents per Kilowatt for all additional Billing Demand.

Energy Charge:

Two cents per Kilowatt-hour for equivalent of the first 50 hours' monthly use of the Billing Demand.

One cent per Kilowatt-hour for equivalent of the second 50 hours' monthly use of the Billing Demand.

One-third cent per Kilowatt-hour for equivalent of the next 300 hours' monthly use of the Billing Demand.

Toronto Hydro-Electric System —continued

One-sixth cent per Kilowatt-hour for all additional consumption.

Prompt payment discount 10%.

NOTE—Alternating Current 25 Cycles—3 Phase—208 Volts Service is supplied in areas where 4 wire A.C. network is installed.

Direct Current Service is supplied in a restricted down town area only.

Rates for Direct Current and special classes of service, such as Flat Rate Water Heaters, Hall Lighting, Sign Lighting, etc., may be obtained on application.

TORONTO OLD AGE PENSIONS BOARD

(Appointed under Old Age Pensions Act,
Ontario, R.S.O. 1937, Chapter 314)

The Board consists of five persons; three appointed by the Province and two by the Municipality.

Its duty is to receive all applications for Old Age Pensions and Blind Pensions made by residents of the City of Toronto; and forward them, together with their recommendations, to the Old Age Pensions Commission of Ontario.

MEMBERS OF THE BOARD

Provincial Appointees:

Arnold Ivey, Chairman.

Robert Ferguson

Mrs. W. A. Walker

Municipal Appointees:

Ald. C. M. Carrie, Vice-Chairman

Zeph Hilton

Secretary's Office

Stewart Building, 149 College Street, Toronto.

Telephone, Waverley 1082.

The actual number of Toronto residents receiving Old Age Pensions at December 31,

Toronto Old Age Pensions Board—continued

1941 was 11,947. The amount paid out in Pensions during 1941 was \$2,554,679.03.

At December 31, 1941, 272 persons in Toronto were receiving Blind Pensions, and the amount paid on their behalf totalled \$62,673.08.

The City is required to provide office space, staff, etc., and these for administration purposes are attached to the Department of Public Welfare.

MOTHERS' ALLOWANCES TORONTO BOARD

(Appointed in pursuance of the Mothers' Allowances Act, R.S.O., 1937, Chap. 313.)

The Board consists of five persons; three appointed by the Province and two by the Municipality.

Its functions are to receive and consider applications for allowances under the Act made by residents of the City of Toronto and to recommend to the Ontario Mothers' Allowances Commission the payment of allowances to those considered eligible.

A monthly allowance may be paid towards the dependent children of a mother with at least one child under sixteen years of age in her care, who is

(a) a widow, (b) or a mother with a totally and permanently incapacitated husband, (c) or a deserted mother, whose husband has not been heard of for at least three years, (d) or a foster mother, who is married or unmarried and has resident with her one or more orphan children and has not adequate means to care properly for them without the assistance of an allowance. In all cases the applicant must be a British subject by birth or naturalization or is the widow or wife of a British subject and has resided in the Province of Ontario for at least two years.

Mothers' Allowances Toronto Board —continued

THE BOARD OF TRADE OF THE CITY OF TORONTO

The Board of Trade of the City of Toronto was organized in 1844 and incorporated by an Act of the Legislature of the late Province of Canada in 1845.

The principal objects of the Board are:

- (a) To promote and/or support such measures as, upon due consideration, are deemed calculated to advance and render prosperous the lawful trade and commerce and to foster the economic and social welfare of the City of Toronto in particular and of the Province of Ontario and of the Dominion of Canada in general.
- (b) To promote the establishment and maintenance of uniformity in the business of its members and those dealing with them.
- (c) To adjust, settle and determine controversies and misunderstandings between persons engaged in trade.
- (d) To advance in all lawful ways the commercial interests of the members of the Board generally and to secure the advantages to be obtained by mutual co-operation.

The Board of Trade of the City of Toronto —continued

- (e) To stimulate in such way as may be determined from time to time social intercourse among the members of the Board.

The Board is one of the largest commercial organizations in the British Empire and functions through a Council of nineteen elected members and a number of Committees, the principal of which are Engineering Advisory, Insurance, Legislation, Northern Ontario, Public Relations, Social Problems, Taxation, Transportation and Customs, and Waterway and Power Development. The Board also operates fourteen Trade and Professional Branches, namely, Air Conditioning Industries, Beef, Lamb and Veal; Book Publishers, British Empire Overseas, Dairy, Fuel Dock, Funeral Directors, Grain and Grain Products, Lumbermen, Motion Picture, Oil Heating, Produce, Provision Trade and Toronto Laundryowners' Exchange, and has affiliated with it the Fuel Protection Association. Each Trade Branch and affiliated organization is self-governing in matters affecting only its own trade or profession, except when the support of the Board as a whole is desired, at which time recommendations are submitted for the approval of the Council of the Board.

The Board of Trade of the City of Toronto —continued

The Board has direct representation on the Advisory Vocational Committee of the Board of Education, Canadian National Exhibition Association, Civic Zoning Committee, Committee on Revision of Toronto Building By-Law, Maurice Cody Research Fellowships and Scholarships Committee, Federation for Community Service, Eastern Committee on Grain Standards, Grain Appeal Tribunal, Ontario Safety League, Smoke Control Association, Toronto Harbour Commission, Toronto Industrial Commission and Traffic Advisory Board.

Commodious Dining and Lounge Rooms and well-equipped offices are maintained for the benefit of the members and for the prosecution of the work of the Board.

The Board of Trade Club, open to members of the Board of Trade, meets weekly on Mondays at 5.30 p.m. for dinner meetings, from October 1st to April 30th.

The primary objects of the Club are:

- (a) to promote good fellowship amongst members of the Board of Trade;
- (b) to educate members to a fuller realization of their responsibilities as members of the Board of Trade;

The Board of Trade of the City of Toronto —continued

- (c) to pave the way to a better understanding of the City's social and economic needs; and
- (d) to make members better citizens of the Dominion of Canada and the Commonwealth of British Nations.

The Young Men's Section comprises young men between the ages of eighteen and thirty. The Section meets every three weeks, on Tuesdays, at 6.00 p.m. for dinner meetings, from October 1st to April 30th. The members are granted limited privileges in the Board of Trade.

The objects of the Young Men's Section are:

- (a) to educate members to a better understanding of the importance—in civic and national life—of the Board of Trade and the Chamber of Commerce movement; (b) to co-operate whenever and however possible in the varied activities of the Board of Trade of the City of Toronto; (c) to enable the young business and professional men of the city to study and to co-operate towards the solution of current national and local problems; (d) to encourage and assist members to study, under competent direction, subjects of value in all phases of business; (e) to promote good fellowship amongst the young business and

The Board of Trade of the City of Toronto —continued

professional men of Toronto who are eligible for membership.

At the offices of the Board of Trade inquiries from all parts of Canada and throughout the world are received and dealt with. Consultation privileges are available to members upon matters pertaining to business. All phases of trade development and protection, from local to world-wide scope come under the review of the Board.

TORONTO CONVENTION AND TOURIST ASSOCIATION INCORPORATED

This Association was organized in the year 1926 for the purpose of increasing tourist traffic and securing Conventions for the City of Toronto.

Officers

Hon. President, Fred J. Conboy, D.D.S. (Mayor).

President, Charles Q. Ellis.

Vice-Presidents, P. Kirby Hunt and J. C. Porter.

Manager, T. H. R. McNally.

Secretary-Treasurer, J. H. Simundson.

Address—Rooms 108-109, 37 Bloor Street West. Telephones, Midway 9874-5.

This Association is governed by an executive committee appointed from its elected Directorate, and has become the recognized channel of community enterprise for the promotion of the visitor industry. Under its direction the advertising of the City is carried on. During the summer months it maintains Toronto's official tourist information office on Lake Shore Boulevard. For the purpose of representing the City in the competitive convention and tourist markets of the continent, this organization has since its inception been allotted a small grant from civic revenue.

TORONTO INDUSTRIAL COMMISSION

The Toronto Industrial Commission was incorporated by Letters Patent under the Ontario Companies' Act on 28th of December, 1928, and began active operations on the 13th of March, 1929. The Commission's objectives are to secure industries for, and aid industries in, the City of Toronto and surrounding territory and to give publicity to the advantages of the Toronto area for business and manufacturing purposes.

It maintains comprehensive data concerning available industrial properties, accepts no commissions or fees, preserves confidential relations with its correspondents, invites suggestions as to names of companies which might advantageously locate in the Toronto area, and has a staff of qualified engineers in industrial, economic and statistical research.

During 1941 the Commission co-operated in the establishment of thirteen industrial developments in the Toronto area. Sixteen existing Toronto industries in 1941 were assisted in securing larger or more suitable manufacturing space, new lines to manufacture and given data on questions of obscure sources of materials, taxation and numerous other subjects.

Since the Commission began operations thirteen years ago it has co-operated with a total

Toronto Industrial Commission—continued

of 198 industrial companies which have established in Toronto and suburbs. They have invested \$14,583,100 in plant and equipment, are employing 9,228 people, and are occupying more than 3,238,800 square feet of floor space. The floor area used by all these manufacturing operations is equivalent to a single plant more than six miles long and 100 feet wide.

In addition to the "direct" employment by the new industries, their operations have resulted in substantial additional employment in other Toronto concerns supplying a wide variety of production materials and services to the new companies and their employees. It has been conservatively estimated that this "indirect" employment represents over 9,000 additional persons.

The employment provided is equal to the total industrial employment in many of Canada's smaller cities. Their coming has added "another city" to Toronto.

These new companies paid taxes of \$44,964 in the City of Toronto in 1941 and purchased electric power and lights to the value of \$155,667.

Eighty per cent. of the employment went to Toronto citizens.

Toronto Industrial Commission—continued

The Commission has also rendered important service to the Canadian Government in developing the special manufacture of munitions and other war materials.

The Commission is the official Industrial Commission for the City of Toronto. Its Board of Directors is made up of representatives nominated by the City Council, the Board of Trade of the City of Toronto, the Toronto Branch of the Canadian Manufacturers' Association, the Toronto Hydro-Electric System, the Toronto Transportation Commission, the Toronto Harbour Commissioners and the Canadian National Exhibition Association.

TORONTO AND YORK ROADS COMMISSION

(Appointed under 5 Geo. V., Chap. 17)

This Commission consists of five persons, two appointed by the County Council of York and two appointed by the City of Toronto, and a fifth to be appointed by the four elected members or the Lieut-Governor in Council. Its duty is the improvement and maintenance of main suburban roads to be determined upon by the Commission. The cost is to be borne by the City, the County and the Ontario Government in the following proportions: 25 per cent. by the City, 25 per cent. by the County, and 50 per cent. by the Ontario Government. The members and officers of the Commission are as follows:

COMMISSIONERS

E. G. Farr, Chairman, 240 Queen's Drive,
Weston, Ontario.

John B. Laidlaw, Vice-Chairman, 625 Avenue
Road, Toronto.

Robert R. Leslie, 72 Hillcrest Drive, Toronto.

Charles F. Mavety, Kleinburg, Ontario.

J. Ray Price, 119 King Street, Weston, Ontario.

W. W. Gardhouse, Secretary-Treasurer.

H. C. Rose, B.A.Sc., Chief Engineer.

Offices—County Building, 57 Adelaide St. E.,
Toronto. Telephone, Waverley 3851.

THE ONTARIO MUNICIPAL ASSOCIATION

This organization, composed of delegates appointed by different municipalities throughout the Province of Ontario, has been formed for the purpose of discussing important municipal topics and of prompting desirable municipal legislation. The delegates are either members or officers of municipal councils.

The annual meetings are held in Toronto, usually during Exhibition time.

OFFICERS—1941-1942

President—Martin Rowell, London Twp.

Vice-Presidents—W. R. Allely, Lindsay; H. Hopper, Hamilton; Stewart S. MacInnes, Welland; J. W. Spooner, Timmins; H. A. Webster, Windsor.

Secretary-Treasurer—Horace L. Brittain, 137 Wellington St. West. Telephone, Elgin 1904.

ONTARIO MUNICIPAL BOARD

R. S. Colter, K.C., Chairman.

W. P. Near, B.A.Sc., Vice-Chairman.

A. J. B. Gray, Member.

Miss M. B. Sanderson, Acting Secretary.

J. A. McDonald, Inspector of Telephone Service.

Offices—Parliament Buildings
Telephone—AD. 1211

THE CONSUMERS' GAS COMPANY OF TORONTO

The Consumers' Gas Company was incorporated on March 23rd, 1848, for the purpose of supplying the City of Toronto with gas.

THE TORONTO HUMANE SOCIETY

The Toronto Humane Society was incorporated in the year 1887 and from that date has continuously carried on its aims and objects, namely, the protection of animals and birds from being cruelly treated.

Humane Education of children is one of the most vital departments of the Society's work, as it is a well-known fact that a child who is taught kindness to animals will not go far wrong in his behaviour towards his fellow-men.

The Headquarters of the Society is situated at 11 St. Albans Street. It operates the City Pound and performs the duties of Dog Catching for the City.

Its records for the year 1941 show that its motorcars responded to 25,142 calls sent in by citizens and these cars travelled 104,946 miles. 5,669 emergency calls were responded to. 1,126 complaints were sent into the Society by citizens regarding cruelty to animals which were investigated.

Constant inspection is maintained over the conditions under which animals for human consumption are handled and killed. During 1941 this entailed the examination of 103,658 cattle, sheep, swine and poultry. The transportation of food animals and birds is frequently carried on with great cruelty. It is therefore the duty of

The Toronto Humane Society—continued the Society to keep constant watch on those engaged in this work. Thousands of pamphlets, giving advice, are distributed to drivers of cattle trucks and others engaged in the transportation of animals.

The Society gives a twenty-four hour service, 365 days of the year for the relief of suffering animals.

President—Hon. R. C. Matthews, P.C.

Headquarters and Kennels—11 St. Albans Street, Telephone Kingsdale 1191.

SOCIAL SERVICES OF TORONTO

Every community has its problems of social break-down. As the community grows the problems of indigence, dependency and illness grow with it. With the increasing complexity of modern city life, health and welfare services have become a recognized responsibility of civic government. Public assistance serves those persons described in legislation or order-in-council as in specific need, while private agencies attempt to meet those needs not recognized in legislation, and carry much of the responsibility for interpretation of need not yet widely understood. These private agencies are often the pioneers in social welfare.

Because of the pressure of events during the past few years there has been a marked trend toward greater co-ordination of both public and private effort in an endeavour to eliminate overlapping and make for more effective and economic service in the interests of people served. The first and simplest mode of co-operation was in the direction of eliminating overlapping, through a system of registration provided by the Social Service Index. Then followed the attempt to unite all voluntary agencies in a common appeal for the support of the public, through community chests

Social Services of Toronto—continued

or federations for community service. Of these, three were formed in Toronto: Federation for Community Service, Federation of Catholic Charities and the United Jewish Welfare Fund. Seventy important agencies are now included in these federations, but a number still continue their own programmes outside the federation group. Out of the federations there developed naturally the demand for co-operation in policy and action which led, in 1937, to the formation of a Welfare Council of Toronto and District. Within this Council any form of organized effort, whether public or private, is intended to have its place, and thus the Council can serve as a veritable parliament of agencies, constantly deliberating and acting in the interests of greater well-being, utilizing the best thought of the community and focusing its goodwill and its resources with the minimum of waste or friction.

A classified list of all the welfare services in Toronto with a brief statement of their purpose is available in the Directory of Welfare Resources issued by the Welfare Council. The co-ordinating agencies are as follows:

Federation for Community Service, Room 906,

TORONTO AND THE TELEPHONE

The telephone needs of Toronto and the adjoining communities are served by The Bell Telephone Company of Canada.

The Bell Telephone Company of Canada was incorporated in 1880 and, in Toronto, it absorbed the Toronto Telephone Despatch Company, which had been serving Toronto citizens since 1879.

Early this year Toronto's 250,000th telephone was installed. About 240,000 telephones are in use in the Toronto exchange area and some 10,000 in the City's suburbs. Roughly one-sixth of the telephones in service in the Dominion of Canada are in Greater Toronto and the City has more telephones, per hundred inhabitants, than any other city in the British Empire.

Torontonians place about 2,000,000 local calls—calls within Toronto—daily. Over 850 long distance circuits terminate at Toronto's long distance centre, largest in Canada, and on an average day Torontonians make about 16,700 long distance calls. This figure takes in only calls which originate in Toronto. It is estimated that about three times that number—incoming, outgoing and through calls—are cleared daily by the Toronto long distance centre.

There are about 3,000 Bell Telephone employees in Toronto and they earn almost \$4,700,-

Toronto and the Telephone—continued

000 annually. Almost a million people visit the company's business offices in Toronto every year and over 300,000 transactions between the company and its subscribers are handled by telephone.

The civic section of the Toronto telephone directory—immediately in front of the yellow pages containing long distance information and rates, and the classified section—includes a wealth of data about the City. Valuable, and readily accessible, information about Toronto's municipal government, trade and commerce, transportation facilities, health and welfare activities, Board of Trade and Canadian National Exhibition is found in these pages. This section of the directory also includes a map showing City and suburban transportation routes, and two pages of postal information.

Executive officers of The Bell Telephone Company of Canada include C. F. Sise, President; P. A. McFarlane, J. H. Brace, F. Johnson, Vice-Presidents; H. G. Young, General Manager, Western Area, and E. A. Rolph, Toronto Manager.

Office: 76 Adelaide Street West, Telephone: Waverley 3911.

Warmest day, mean temperature 92°, July 9, 1936.

Lowest temperature—26.5°, Jan. 10, 1859.

Coldest day, mean temperature—16°, Feb. 8, 1934.

Warmest year, mean temperature 49.7°, 1931.

Coldest year, mean temperature 40.5°, 1875.

Heaviest rainfall in one day, 3.88 inches, July 27, 1897.

Heaviest snowfall in one day, 16.2 inches, March 28, 1876.

Greatest yearly precipitation, 48.49 inches, 1878.

Least yearly precipitation, 23.84 inches, 1933.

Greatest winter snowfall, 123.5 inches, 1869-70.

Least winter snowfall, 25.7 inches, 1932-33.

Greatest total hours of sunshine, 2,306 hours, 1900.

Least total hours of sunshine, 1,851 hours, 1940.

Weather Averages — 1941

Mean temperature, 48.4° or 3.2° above average.

Precipitation, 25.80" or 6.28" below average.

Snowfall for the winter 1940-41 was 58.5 inches or 3.6 inches below average.

Sunshine 2,079 hours, or 19 hours above average.

THE CANADIAN RED CROSS SOCIETY

International Red Cross Movement.

The Red Cross movement rests upon international treaties and conventions, the first of which was signed at Geneva in 1863. The underlying idea of the movement was the securing of immunity from attack for all persons engaged in relief of the sick and wounded in battle. The scope of the movement has been gradually extended so that now the Red Cross is recognized as a symbol of humanitarian action of many kinds in all parts of the world, and its protection is extended both to the departments of the armed forces charged with the care of the sick, wounded, and prisoners of war in the Navy, Army and Air Force, and also to the voluntary workers who are auxiliary to these forces. Under the Covenant of the League of Nations, of which Canada is a signatory, the services of the Red Cross were extended to include "the promotion of health, the prevention of disease, and the mitigation of suffering both in peace and war."

Canadian Red Cross Society

The Canadian Red Cross Society holds its Charter under the Act of Incorporation passed by the Parliament of Canada in 1909, which Charter was amended by the Dominion Parliament in 1919

The Canadian Red Cross Society—continued to cover the enlarged scope of its work as defined in the Covenant of the League of Nations.

The Central Council, which is the governing agent of the Society, is a representative body composed of two members elected by each Provincial Division, and of fifteen "members-at-large", elected by the eighteen Provincial representatives. Any person may become a member of the Society by paying an annual subscription of \$1 to a Local Branch.

The Canadian Red Cross Society at the end of 1940 was organized under nine Provincial Divisions and more than 2,600 local Branches to which are attached some 10,000 auxiliary groups. In the Toronto Branch there are over 900 working groups containing a membership of 34,000 women. The Society is served by a mighty army of volunteer workers with a small force of salaried officials by whom the voluntary service of the Society is co-ordinated. There has been no Canadian Red Cross campaign during 1941.

Organization

Since the war began the Canadian Red Cross has made two appeals to the people of Canada—one in November, 1939, and the other in September, 1940—which have raised a joint total of over \$11,000,000. This money was raised through the organization of the Society throughout its 2,700

The Canadian Red Cross Society—continued

local Branches, augmented by special campaign committees of business men and women canvassers.

Peace Work

The peacetime budget of the Society, amounting to about \$800,000, is included in the appeal, and after deducting the amount needed for its peacetime budget, each Branch is permitted to retain in its own hands fifty per cent. of the balance for the purchase of materials to be made up by voluntary women workers, into surgical and hospital supplies and comforts for men in the army, navy and air force.

War Activities

The other fifty per cent. of war funds is turned over to the National Executive which has undertaken such major expenditures as that of the Base Hospital at Taplow with 600 beds, completely built, furnished and equipped by the Canadian Red Cross Society at a cost of \$750,000, and handed over to the Department of National Defence to be staffed and maintained by the Royal Canadian Army Medical Corps. All costs of the Red Cross transportation services and warehouses, both in Canada and overseas, and administration of national offices both in Canada and Great Britain, are defrayed by the Head Office.

The Canadian Red Cross Society—continued

The costs of distribution of comforts and extra equipment for the Canadian Army Medical Corps hospitals both in Canada and overseas, and of emergency supplies to be used in the event of disasters in the Dominion of Canada have also been defrayed out of Headquarters' funds. The purchase of the necessary foods and packing cases required weekly for over 30,000 prisoners of war parcels has also been undertaken by the National Executive under a special committee appointed for the purpose, of which Mr. N. C. Urquhart of Toronto is Chairman. These parcels are packed in Toronto and Montreal. The cost of 5,000 parcels a week is defrayed by the Australian Red Cross and the New Zealand Red Cross pays for 2,500 parcels each week. Each parcel costs approximately \$2.50 and 100,000 cards of acknowledgment from British prisoners have been received by the Canadian Red Cross Society.

The last complete statistics of the Society (1939) show the cost of administration and of campaign and publicity to be 5.5% of the expenditures of the Society, covering expenditures both in Canada and overseas.

Audits

All monies entrusted to the Canadian Red Cross Society are audited annually first in the

The Canadian Red Cross Society—continued

local Branch; secondly, in the consolidated accounts of the Provincial Divisions; thirdly, in the consolidated accounts presented by the National Executive; and lastly, by the Department of National Defence with which the Canadian Red Cross Society is required to deposit its annual financial statements.

Blood Donors

A new development of Red Cross work is the Blood Donor Service under the direction of Dr. C. H. Best, of the Department of Physiological Hygiene, University of Toronto, who was assisted in the earlier stages of his research by small grants from the Toronto Branch of the Red Cross and by the organization of a clinic of voluntary blood donors by Mr. A. G. Northway and Mr. G. R. Sproat of Toronto. The clinic operated by the Toronto Branch, at 410 Sherbourne Street, furnishes over 500 donations of blood each week to the Connaught Laboratory. This clinic is financed by the profits secured by the Toronto Skating Club from its annual carnival. This project has now been reorganized and greatly enlarged, and is a co-operative service maintained by the Federal and Provincial Governments and the Canadian Red Cross Society.

Dr. Best's discovery that blood "plasma" can be reduced to a powder and kept indefinitely for

The Canadian Red Cross Society—continued
 use in surgical, medical and neurological cases
 is recognized as a major discovery both for war
 and peace.
